

INTERNATIONAL DOCTORATE IN PHARMACEUTICAL SCIENCES

[...ut civitas Perusii sapientia valeat elucere...]

Perugia, A.A. 2016/2017

Partner of the European Pharmacoinformatic Initiative 
Partner of the the Paul Ehrlich Euro-PhD Network

Seminars PhD students XXX ciclo

June 1, 2017

15.00-15.30 PM Scaffold hopping approaches in the modern medicinal chemistry

(Dr. Andrea Astolfi)

15.30-16.00 PM *In silico* studies: here we ~~come~~-fail.

(Dr. Francesco A. Greco)

June 9, 2017

15.00-15.30 PM A glance in the medicinal chemist's toolbox.

(Dr. Francisco Fermìn Castro Navas)

15.30-16.00 PM Organic and Inorganic Chemistry: two worlds that intersect with one another

(Dr. Chiara Morozzi)

June 16, 2017

15.00-15.30 PM Gut microbiota: implications in multiple sclerosis.

(Dr. Stefania De Marco)

15.30-16.00 PM Self-optimizing systems for continuous flow production.

(Dr. Valentina Mancino)

June 23, 2017

15.00-15.30 PM Cooperative catalysis in the photochemical synthesis of heterocycles.

(Dr. Martina Palomba)

The seminars will be held at Department of Pharmaceutical Sciences, Hall A, via del Liceo,1, Perugia (Italy).

INTERNATIONAL DOCTORATE IN PHARMACEUTICAL SCIENCES

[...ut civitas Perusii sapientia valeat elucere...]

Perugia, A.A. 2016/2017

Partner of the European Pharmacoinformatic Initiative 
Partner of the the Paul Ehrlich Euro-PhD Network

Seminars PhD students XXXI ciclo

January 27, 2017

15.00-15.30 PM Nutritional and nutraceutical proprieties of wheat germ: the alpha-tocopherol metabolite Alpha-(13'-hydroxy)-6-hydroxychroman regulates CYP4F2 and PPAR- γ expression of human hepatocytes

(Dr. Pierangelo Torquato)

15.30-16.00 PM Anti-inflammatory effects of Serobioma on human PBMCs, human mast cells CD34+ and activated human macrophages (MDM)

(Dr. Marzia Sichetti)

February 3, 2017

15.00-15.30 PM Multicomponent Metal-free Approach to Biaryls through High-Pressure promoted Diels-Alder Reaction

(Dr. Francesca Piazzolla)

15.30-16.00 PM Role of vitamin D3 in eating disorders and in embryonic hippocampal cells development

(Dr. Samuela Cataldi)

February 10, 2017

16.30-17.00 PM Targeting the PARP superfamily: past challenges and upcoming trends

(Dr. Martina Ferri)

17.00-17.30 PM Fighting antimicrobial resistance: efflux pump inhibitors as a new outlook for giving new life to old drugs

(Dr. Tommaso Felicetti)

The seminars will be held at Department of Pharmaceutical Sciences, Hall A, via del Liceo,1, Perugia (Italy).
